

You've Graduated... What's Next?

Stay connected to the HR profession and continue to grow your skills once you have graduated. Keep informed of job postings, professional events and many other opportunities as you travel down your HR career path.

Upon graduation, current Student Members are offered a one-time New Graduate* membership rate of only \$200 when annual membership is due for renewal. That's a 50% savings off the General Member price!

The fine print:

- * Applicable only to student members in good standing. If you join for the first time after you graduate, membership will be the regular rate of \$400 plus a one-time \$65 activation fee.
- Your student membership annual dues will automatically default to the New Graduate member rate on renewal. If you are still in school, send us proof of student status and you'll continue to pay the low fee of \$60 per year.
- The New Graduate member rate does not apply to student members who immediately become, or are designated, full CPHRs.
